Our interview with the Lord Mayor!

During the official open day, four of our reporters interviewed the Lord Mayor. He explained how being the Mayor was a great honour and that he loves seeing all the fabulous schools. He also told us that he loved his Bentley, which has lots of high-tech features such as;

- A lever which makes the seats rise
- A button which turns the massaging seats on
- A mirror which flips up
- A chauffeur called Clive

Here is a picture of this beloved vehicle...

He said that his favourite part of our new school is the big corridor in the new building and that he really liked the hexagonal tables that pull apart. The mayor said that his favourite school subjects were RE and Biology. We really enjoyed our interview with the Mayor. He even asked for a copy of this brilliant newspaper!

Interview with David Grainger

Some of our reporters went to interview David Grainger from the local authority during the official open day. He is the budget holder - he gives money to school build projects and supports the head teachers he leads.

We asked him why the school was given money to grow in size. He replied with "The new housing means that there are more families and more children that need the school. They need the space to work."

David was happy with how our new school looks. His favourite thing in the new build was the teaching street in the junior block. He thought it all looked excellent.

Can you help me find my pet pumpkin? I've lost him somewhere in this newspaper. The first person to tell Olivia in year 6 where he is will get 5 house points!

How far can a rabbit run into the woods?

Halfway. And then he is running out of the woods!

A woman walks out into the road wearing all black including a black mask. A van is driving down the road at the same time but it stops. How did he see her?
